

Q: What extracurricular activities are available to my child in Okinawa?

Elementary and middle schools tailor after-school programming based on student interest and availability of resources. Examples of current programming include Okinawan drum and dance, homework club, and robotics.

Elementary and middle schools do not have an athletics program, however, there is a Youth Sports program, unaffiliated with the school, located on-post. DoD High schools offer a robust menu of student activities such as sports, culinary, JROTC, music, and more. DoDEA's goal is to offer activities and athletic events that contribute to a well-rounded experience commensurate with attending U.S. high schools. For more information on student activities, visit www.dodea.edu/Pacific/Activities.
